Profile

Hello! I'm Nelian, a passionate web developer creating digital solutions that make a difference. My journey in tech started with curiosity and has evolved into a deep love for crafting elegant, user-centered experiences. I build responsive websites, complex web applications, and intuitive interfaces with creativity, precision, and a strong focus on user needs.

Skills

- HTML & CSS: Semantic markup, Flexbox, Grid, responsive design
- JavaScript: ES6+, async programming, DOM, frameworks
- React: Hooks, state management, component-driven design
- Python: Django, Flask, scripting, backend development
- Databases: SQL, PostgreSQL, MongoDB
- UI/UX Design: Wireframing, prototyping, design systems

Education

- Bachelor of Science in Computer Science
- University of Embu • 2021 – 2025 (Expected)
- Specialization: Software Engineering & Human-Computer Interaction
- Capstone: AI-Powered Web Accessibility Tools – Dept. Innovation Award

Experience

- Networking Intern – University of Embu
- • Assisted in managing university network infrastructure and user support.
- • Gained experience in networking protocols, troubleshooting, and IT operations.

Projects

• E-Commerce Platform – React & Node.js, includes payments, auth, and inventory

• Task Management App – Real-time updates, team collaboration, Firebase

• Weather Dashboard – Forecasts, location search, API integration

• Portfolio Website – This current portfolio, fully responsive and animated
